SUMMARY

Self-driven and detail-oriented Computer Science student with strong foundational knowledge in software development, data structures, and system design. Experienced in building full-stack applications using technologies like React, Node.js with a solid understanding of modern frontend practices. Eager to apply and expand my skills in scalable software architecture, API development, and cloud-based systems. Known for quickly adapting to new tools, collaborating effectively in team environments, and building clean, maintainable code through hands-on projects and internships.

Technical skills

Languages: JavaScript, TypeScript, Python, Java, C , C++

Frameworks & Libraries: React Native, Node.js, Express.js, React , Tailwind CSS

Cloud & Tools: Firebase (Auth, Firestore, Storage), AWS (S3, Lambda), GCP, Git, GitHub, Postman

Databases: MongoDB, Firebase Realtime Database, SQLite

Other: REST APIs, Google Maps API, LocationIQ, Agile/Scrum, Git CLI , AWS CLI

Projects

[WeatherForecast](#)

Built a C++ desktop application that fetches and displays live weather data for any city using the OpenWeatherMap API. Integrated CppRestSDK to handle API requests and present temperature, humidity, wind speed, and pressure.

Tech Stack: C++, CppRestSDK, OpenWeatherMap API

[Hive](#) (Vercel)

Developed a full-stack event management system to streamline event planning and team coordination. Implemented backend APIs using Express.js with PostgreSQL for user, event, and session data. Built dynamic frontend using Next.js for a seamless user experience.

Tech Stack: Next.js, Express.js, PostgreSQL

[Compression & Decompression](#)

Implemented a high-performance file compressor in C++ using Huffman and Run-Length Encoding algorithms. Enabled users to efficiently reduce file sizes and restore original content.

Tech Stack: C++, Huffman Encoding, RLE

[TO-DO-List](#)

Developed a responsive web app that allows users to create, update, and delete to-do items with real-time sync. Integrated backend with Express.js and MongoDB using Mongoose for data persistence.

Tech Stack: React, Express.js, MongoDB (Mongoose)

[Product Transparency system](#)

Created a React Native mobile app for users to report and view local product sightings. Integrated LocationIQ API for geolocation and address autocomplete, and Google Maps for previews. Backend powered by Express.js and MongoDB.

Tech Stack: React Native (Expo), Express.js, MongoDB, LocationIQ API, Google Maps API

EXPERIENCE

Cloud Engineering Intern – we45 (Remote/Bangalore)

Mar 2025 – Jul 2025

- Documented CI/CD pipelines, authentication flows, and environment variable management for cloud projects.
- Contributed to infrastructure setup using serverless services and assisted in repository structuring.
- Supported internal tooling documentation and deployment best practices across teams.

Website: we45.com

EDUCATION

PES University, Electronic City – Bengaluru, India

B.Tech in Computer Science Engineering

Nov 2022 – May 2026 | CGPA: 7.95 / 10

BASE PU College – Bengaluru, India

Class 12 (Intermediate – MPC Stream)

Jun 2020 – Jun 2022 | Percentage: 96%

Sri Chaitanya School – Bengaluru, India

Class 10 (Secondary Education)

Apr 2020 | Percentage: 91.8%

Soft Skills

Team Collaboration · Critical Thinking · Communication · Leadership · Attention to Detail

Problem Solving · Adaptability · Initiative · Design Thinking · Continuous Learning

Certificates

- **AWS Educate – Getting Started with Serverless** [Link](#) | Jul 2025
- **AWS Educate – Getting Started with Compute** [Link](#) | Jul 2025
- **Jira Work Management Certification – Atlassian University** Atlassian University | Nov 2024
- **Problem Solving (Basic) – HackerRank** [Link](#) | Apr 2024
- **Problem Solving (Intermediate) – HackerRank** [Link](#) | Apr 2024

Awards and Extra Curricular

- **Scholarship Recipient – PES University**
Awarded institutional scholarship based on academic performance.
- **Club Member – IEEE RAS & Terpsichore (Dance Club)**
Active member of both technical and cultural student communities.
- **Event Volunteer – Cultural Festivals at PESU**
Contributed to planning, coordination, and on-ground support for university-wide events.
